## Death Claims President's Wife

Mrs. Wilson, wife of our President, is dead. The Nation's head is bowed in sorrow, while the heartfelt sympathy of every true American citizen will go out to the bereaved husband. The news came almost like a bolt from the clear sky, for it was not generally known that her illness was so serious till a short time before the end.

Mrs. Woodrow Wilson was a true wife. The high eminence attained by her husband was due in a large measure to her constant devotion, wise counsel, and patient sympathy. She filled the position of first lady of the land, ideally. Her death will be a great blow to the president, who just at this trying time of his life, needed her help and sympathy most.

## That The People May Know

The following is clipped from an article in a recent issue of a Provo paper:

"The people of this county know that the Democratic administration now in charge of the county affairs are running the business of the county on an economical basis." Incidentally this paper has some personal information on this matter of economy. Several weeks ago the county commissioners advertised for bids for county printing. Probably the biggest item of the county printing is the publishing of the annual county delinquent tax list. The bid of the Alpine Pub. Co. was 11 cents for each description, good looking ore from two different

That of the Provo paper was 17 cents. The latter paper was given the contract, though the papers of the Alpine Pub. Co., in which the list would have run, has double the circulation.

Reason—The Provo paper is the Democratic organ—our's is independent.

The article and letting of the contract are politics, pure politics.

## Mimic War Near Alpine

Utah National Guards and Government Regulars engage in Psychological Fighting in Foot Hills Near Alpine.

The state newspapers have been full of battles raging between the Reds and the Blues in the foot hills above Lehi and Alpine. One could easily imagine that the scenes of turbulent Europe were being enacted here.

The facts are that the national guard and a company of regulars have been holding a mimic battle lasting all day Thursday, and was still raging, psychologically, as we go to press. The soldiers camped early in the week just south of Deer Meadows and west of Jordan River. They engaged in target practice for two days and then crossed the river towards Alpine to meet and surprise the supposed enemy. Another division marched from Provo to Pleasant Grove Tuesday, camping the following night in the American Fork city park. Thursday morning early, they marched to Alpine, where they expected to find the enemy some place in the hills. The ones being fought are all imaginary, though the maneuvering is done scientifically.

Wednesday night the boys had a fine time dancing in the Apollo, and the following night all Alpine turned out to the dance in the Alpine hall, which was also crowded with the guards.

Ephraim, Mantle, Mr. Pleasant, Ogden and Salt Lake each have a company in the infantry and Salt Lake City supplies the battery. The regulars are the company recently sent from Oregon to Fort Douglass.

While crossing a steep gully near Jordan Narrows, Thursday, a caisson tipped over breaking the leg, with a compound fracture, of Willford Hancock, a private in the N. G. U. He was taken to a Salt Lake City hospital, and it is feared that he may lose his life.

## WILL FORM NEW MINING CO.

C. W. Earl came down this week from the mining property owned by him and Ike Wadley, in American Fork canyon, bringing samples of good looking ore from two different

venues, one lying in the porphyry and one in the quartzite. Both veins show up well in the assays and give promise of opening up well with a little more development. Messrs. Hart and Wadley will form a corporation to develop their property, which will be composed of Lehi, Pleasant Grove and American Fork people. Soon as the corporation is perfected it is intended to open a campaign of development.

## GREAT FEAR FOR SPRING LAMBS

John E. McKinney of Fairfield, was in Lehi Monday and went to Salt Lake City the day following. He will go to Colton next week, and on the 17th inst. will ship a car of lambs to the Chicago market.

Mr. McKinney says that the market this year promises to be the highest in history. Already prices of \$5.00 per hundred are being realized, and indications are that they may go higher. The lambs are in excellent condition and will weigh ten pounds heavier than they usually do at this season of the year. This is attributed to the excellent feed on the ranges this year which is better than for many years past.

## PLEASANT GROVE LOCALS

Misses Rua Stewart, Avis and Sadie Mills, Florence Stewart, Jennett Bullock, Lynne Robinson, Roy Smith, Martelle Lund, Elroy West and Jos. Mills are in American Fork canyon for the summer vacation.

Miss Myrtle Kelsey of Salt Lake City, spend Saturday and Sunday visiting Miss Emily Anderson. Miss Kelsey has spent a great deal of her time in traveling and says Pleasant Grove is an ideal place to live.

A terrific storm passed over Pleasant Grove Sunday at about 10:00 p. m. The electric display was something appalling, lightning being practically incessant for quite a period, some of them being altogether too close for comfort. One bolt put the lights out of commission, throwing out cases and destroying grooves. It is reported that one man was so seriously injured by the heatwaves of the electric charge that he was rendered unconscious for some time. A young girl in the same vicinity was also prostrated while attempting domestic duties. The precipitation was heavy but brief.

## CAN YOU

Can you make the eye of a needle cry?  
Can you deafen an ear of corn?  
Can you manure the hands of a clock,  
Or even the finger of scorn?  
Can you wipe the mouth of a flowing stream?  
Can you trim the beard of a hook?  
Can you make shoes for the foot of a hill,  
Or a wig for the head of a brook?  
Can you break the leg of a yatching course?  
Can you break the arm of the sea?  
Can you make the hounds of a wagon bark,  
Or even the bark of a tree?

Can you trade with a man that's trading you?  
Can you trade with all your might?  
Can you look and watch and tell the time,  
When you hear him bark at night?  
Can you work the man that's working you?  
And slight your work as you do?  
You'll find to your sorrow just as I have,  
That he will surely can you.

## The Certificate of an Abstract.

The real value, finally, of the abstract depends upon the skill, accuracy, and thoroughness of the expert who prepared it, and upon the honesty of the man behind.

Unless the abstract passes muster before the legal fraternity and is accepted by ultra-conservative investors and unless the certificate means something it is useless because it affords you no protection. We have filed a \$10,000.00 bond for your protection.

But with a good abstract prepared by reliable and responsible abstractors your real estate becomes as negotiable as stocks and bonds.

The Utah Title Company extends to you a cordial invitation to come and ask for any information wanted as to County Records. Don't bother the County Recorder, but come to people who will make your interests their interests.
